

A special Bendelta lunch event

THE POWER OF POTENTIAL

JOIN US AT OUR LUNCH FORUM FOR THE LATEST INSIGHTS ON HOW TO LIFT BUSINESS PERFORMANCE, DEVELOP THE POTENTIAL OF YOUR PEOPLE AND AT THE SAME TIME IMPROVE OUTCOMES FOR SOCIETY.

Featuring Nobel Peace Prize winner, Profesor Muhammad Yunus

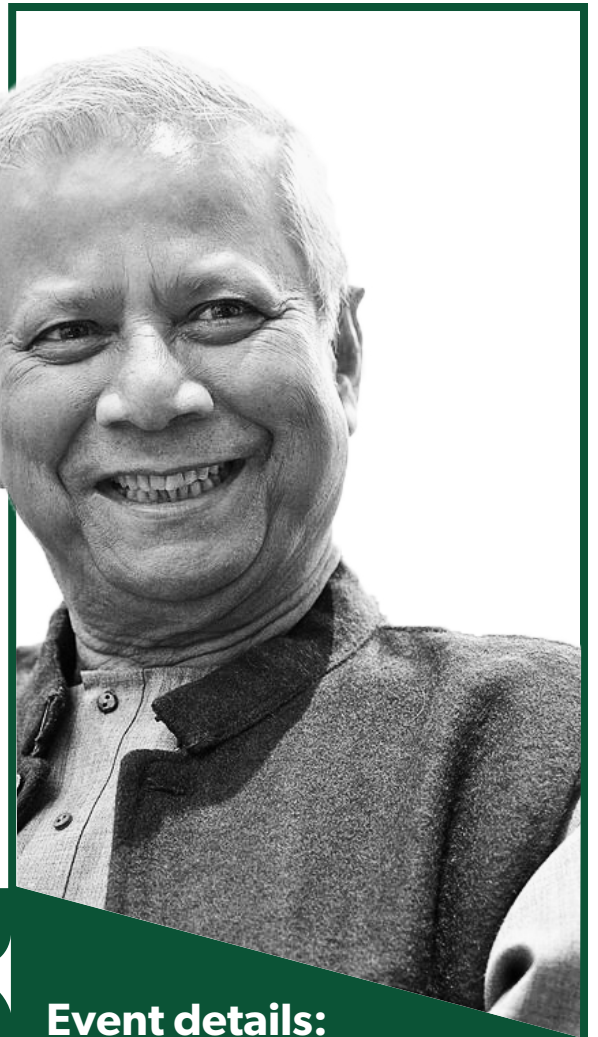

Gain insights from Prof Yunus' new book, "A world of 3 Zeroes: Zero Poverty. Zero Unemployment. Zero Emissions"

At this special event, Bendelta is delighted to host Nobel Peace Prize winner Professor Muhammad Yunus, who will explain how his new book sets out a bold but achievable vision for the 21st century. You'll also learn more about how Professor Yunus revolutionised thinking on the elimination of poverty with the creation and application of the concepts of micro-finance and micro-credit.

At this limited-attendance event, you will also be able to:

- Hear Prof Yunus' latest thinking and seek his views
- Engage in creative and collaborative dialogue with your fellow attendees on how business success and societal contribution can be mutually beneficial rather than a trade-off
- Learn how Bendelta's recent projects in leadership and organisational design have enabled clients to contribute to improving the world while improving their business and developing their people

Co-hosted by Grameen Bank Australia
